The inventions of claims 1-3 and 5 do not appear to be novel. The second working example of document 1 cited in the ISR is same as a flexible pipe of the inventions of claims 1-3 and 5.

The inventions of claims 1-9 do not appear to be novel. The working example of paragraph 0030 of document 2 cited in the ISR is same as a flexible pipe of the inventions of claims 1-9.

The inventions of claims 10-13 do not appear to involve an inventive step based on document 2 cited in the ISR. Although an electronically conductive paint and a peeling layer are not described in document 2, it is easy for a person skilled in the art to conceive of using this constitution.
